Dear members of WG Batteries,

Thanks for your comments in our last call on the [draft trilogue paper](#) - we have, in line with our discussion, **inserted a short final paragraph on recycled content requirements** towards the bottom.

Please **leave any comments you may still have on the document before Friday, 27 May, CoB**. In the absence of further comments, we will treat the paper as accepted, whereas if further inputs are received, we will aim to solidify a final version with you in our next regular call on 7 June.

Thanks for your constructive engagement thus far, and we are looking forward to continuing our work and outreach on this file with you!

Best,

Thomas
